Dear Students,

Welcome to Pamukkale University!

After a lengthy and exhausting test preparation period, you are now a PAU-member by making your choice. I congratulate all of you and am delighted to see you among us this year, when we celebrate the 25th anniversary of our university. PAU has 15 faculties, 3 higher schools, 6 graduate schools and 13 vocational schools with -associate degree, undergraduate and graduate level education. 36 Research and Application Centers of the Rectorate also carry out scientific activities in their fields.

PAU's mission is to serve humanity through education and research, development and implementation at national and international standards, using up-to-date information and technology in the light of universal values; to develop competent, innovative, entrepreneurial individuals who are respectful to basic human values. Students are the most important element of an educational institution. Pamukkale University hosts a wide range of scientific, artistic and social activities. We place much emphasis on developing yourselves in social, cultural and sportive sense as much as in academic sense. For this reason, I advise you to examine our library open 7/24 with more than 80.000 books, our student communities where 24.600 students are registered, the programme of our State Theater and Martyr Ömer Halisdemir Sports Center, which is the largest sports complex in Turkey.

We have partnership agreements with 266 different universities in 49 countries in total within international exchange programs such as ERASMUS + and Mevlana for our students to experience learning that will support their careers in their personal and professional lives. We are working in PAU with an understanding of continuous improvement and we encourage you to be equipped with the basic knowledge, skills and values you will use in the next step of your career. I hope that you will graduate from PAU as a person who is rational, scientific, open-minded, innovative, quality-oriented and who has social responsibility consciousness in this way that we have progressed with the aim of becoming a continuously developing world university and I believe that our university will gain more value with you.

I am pleased to be together with you under PAU framework, to come together to overcome the difficulties you are experiencing and to keep communicating.

May the years you spend in PAU be filled with health, happiness and success,

Yours sincerely,

Professor Dr. Hüseyin BAĞ
Rector of Pamukkale University

Welcome to Pamukkale University!

Dear PAU Member, first of all, we would like to say that it makes us very happy to see you as a family member of Pamukkale University. We congratulate you for leaving behind the intensive exam marathon and hope that your university life will be full of personal development opportunities and positive experiences.

We planned the Orientation Program to help you adapt to this new environment, where you will spend the next few years. We have updated this booklet under the Orientation Program 2018/2019. Here you will find practical information about our university and the sections on the campus that illustrate academic, cultural, social and sports facilities. We advise you not to leave it for a while :)

You can think of the Orientation Program as the first step towards university life. More than ten thousand new students who have signed up with you are now part of this program; but this program will be quite different from the lessons you will get later. We want you to get used to campus life as easily as possible and to learn how PAU offers you opportunities here while you make your career plan. For this we will be doing both a pleasant and informative program for two weeks in common with all departments of the university!

We expect your future university life to be successful, satisfying, happy and peaceful; and we expect this process to support you in your development as a PAU graduate who is confident, entrepreneurial, sociable, knows how to realize his dreams and produces projects that will benefit all segments of the society. As PAU PDREM, we are here to support you at this point in the process.

By the way, we remind you again that all the first graders are invited to our open air cinema events organized under the Orientation Program :)

**WHAT IS PUSULA INFO SYSTEM?**

With PAU PUSULA Information System, you can view your grades, register lessons, and access many academic information. After registering at Pamukkale University, your username and password must be sent to you by SMS. You can log in with your username and password at <https://pusula.pau.edu.tr/>. You can also examine student communities from the SKS submenu and choose which one you want to become a member of. Do not forget to follow the communities from social media and go to meetings after you become a member :) All student communities are excited to meet you :)

HOW TO GET AN E-MAIL ACCOUNT?

The e-mail account is created automatically by the Computer Center. When the accounts are created, the first letter of your name, the whole surname and the last two digits of the entrance year are combined as your user name and your username and password must be sent to you via SMS during registration. Using this information, you can log in to your email account at xxxxxx18@posta.pau.edu.tr.

You can login at <http://eposta.pau.edu.tr> to access your e-mail account. If you forget your password and / or username, you can click on the link "I do not know my password or user name" at the bottom of the PAU Pusula Information System login screen (pusula.pau.edu.tr). The new password will come as SMS to the registered mobile phone in the system.

WHAT IS ESS (EDUCATION SUPPORT SYSTEM)?

It was established in order to ensure that the courses offered at our university are administered via internet. You can access the lessons of the active periods by using Pusula system user name and password and you can follow your lessons through this system. Functioning is simple as follows: At the beginning of the teaching period, the lecturer uploads the course material into ESS; so you can track the material the teacher has shared online, see the assigned assignments, and upload your own assignments to the system. ESS is also an educational platform that is enriched with quizzes that measure your level of understanding the course materials and have forums where you can exchange views and talk to your classmates about your topic. You can check it in detail at <http://eds.pau.edu.tr/moodle/>

PART TIME WORK

What is the purpose of recruiting a part-time student?

The aim is to contribute to the growth of your students as productive individuals who are disciplined by providing them with both financial gain and practical skills by working in temporary jobs in their spare time outside their class hours.

When are student recruitments made?

Student recruitments are made at the beginning of each academic year (October). In case of need, it is in the middle of the term (February). There is no student recruitment except for these periods.

How can I apply for a job?

Job advertisements are published in the part-time student section at <http://sks.pau.edu.tr> . Our students can apply to only one job ad during each announcement period.

FOOD GRANT

We have food grant to offer 1000 students in our university. Grant applications are taken online via the web at the beginning of the academic year. Students who qualify for a grant are eligible for free food service with a campus card during the academic year, if they submit documents required by the administration to demonstrate their status at the time of application.

You can apply for a food grant from the SKS Information System at <https://pusula.pau.edu.tr/Login.aspx> . You can follow pau.edu.tr homepage for the food scholarship announcements.

The scholarships given to our students by official and private institutions are carried out by the Rector's Office of Student Affairs. For Student Affairs Department of our University: <http://www.pau.edu.tr/oidb/tr>

LIBRARY

"I do not know what I may appear to the world; but to myself I seem to have been only like a boy playing on the seashore, and diverting myself in now and then finding a smoother pebble or a prettier shell than ordinary, whilst the great ocean of truth lay all undiscovered before me."

Sir Isaac Newton

BORROWING A BOOK

In the 1929 square meter library with more than 80,000 books, you can borrow 5 books at one time with your student card for 15 days. When you return the books to the library, you can borrow new books. If the book you want appears on another user, you can reserve it and reserve it for borrowing when the book is returned. You can see the books on <http://193.255.52.60/login/> by entering your username and password.

BOOK/JOURNAL/ARTICLE SCANNING AND OFF-CAMPUS ACCESS

You can browse by subject title, keyword, book or author name at <http://tarama.pau.edu.tr/>. Outside the campus, if you want to scan databases that Pamukkale University is a member of, you must first come to the library and fill in the "Off Campus Access Form". When the account is accessed from the campus, you can access the databases from the computer you want with your username and password.

CUMULATIVE CATALOGUE

It is a catalogue work prepared by ULAKBİM that allows to scan library records of all member universities at one time. Whichever library the book you are looking for is in, you can borrow it by bringing it to the PAU Library, paying shipping charges.
