Academic Year and Semester:

BASIC PRINCIPLES

- A photo shoot can be made during the lesson only with the permission of the instructor who teaches the lesson.
- Students who cannot take notes or read course notes due to disability during the course can only take photos of the written /projected material /image related to the course for their personal use.
- The photos taken should belong only to the material/image used in the lesson. Private information such as the classroom environment, people's faces cannot be recorded.
- Video recordings can never be taken in the course, materials/images related to the course can only be photographed.
- The student should not disrupt the flow of the lesson when taking photos, be quiet and not move around the classroom.
- Photos of the material /image taken cannot be shared with other people and platforms without the permission of the instructor concerned. It may not be published or cited in any way without the approval of the instructor and without citing the relevant instructor.
- Photographs of the material /image taken cannot be used in any way against the instructor of the relevant course and the students participating in the courses.
- The photo shoot can only be made with the personal devices of the relevant student. Defined course partner or classmates cannot shoot on behalf of the student with their own devices.

I have read and understood the photo shoot commitment. As a student enrolled in this course, I pledge that I will follow the principles stated above for every photo shoot I will make.
